

Providing independence with the **freedom** to view photographs, write, enjoy reading and hobbies.

S video, Composite video and VGA video output, allows the user a choice of CRT television, flatscreen television or computer monitor.

XY table resistance braking.

Auto focus allows the reading of thick books and medication bottles with convenience.

Large user friendly controls.

Premier 2008 base unit shown with 22" flatscreen monitor.

The pursuit of innovative design, along with attention to industry demands, has led Vision Technology to the next phase of product design with additional options available. This same premise was initiated by asking "what do you need in a video magnifier"?

The effects package "EP" includes window shading, line markers and color pallets. The EP is available upon request for Vision Technology products from desktop viewing to intermediate and distance viewing.

Vision Technology offers 2X magnification allowing individuals with the beginning stages of Low Vision the benefit of these products. In addition to the EP and 2X magnification, Vision Technology offers distance viewing on many of their products. Vision Technology's patent pending design allows easy transitioning to distance viewing. This **patent pending** design allows individuals with low vision to conveniently see the world around them.

Premier 2008

Desktop Video Magnifier

Patents Pending

Premier 2008 Specs

Product

Height 11"
Width 14"
Depth 17"
Weight 15 lbs

Transportation Carton

Height 16"
Width 14"
Depth 21"

Standard Features

Color
Autofocus
Ball bearing table movement
Desktop Viewing
Audible Feedback
Window shading
Line markers

Reading Table

Unrestricted workspace
XY resistance braking

Magnification Range

2x- 65x

Illumination

Florescent lighting

Optional Accessories

Computer Compatibility
KVM switch (Keyboard, Video, Mouse)

Power Supply

Input Voltage 100-240 V AC
Frequency 50-60 Hz

Large Control Features

Zoom in
Zoom out
Viewing Modes
Brightness
On/off
AutoFocus

Image Choices

Picture mode for enhanced viewing of images
High contrast text modes

Video Output

VGA
S Video
RCA composite

Optional Effects Package

User selectable foreground / background color combinations.

Warranty

2 year limited warranty
